Dear sundar,

I am writing to apply for the Software Engineer position at intel as advertised on linkedin With a Bachelor's degree in information and communication technology and over two years of practical software development experience, I am confident in my ability to contribute effectively to your team.

During my time at lava, I developed and maintained web applications using JavaScript and python. My efforts resulted in a 25% increase in user engagement and a 30% improvement in application performance.

I am particularly excited about intel's commitment to innovation. I believe my skills and experience align well with your needs, and I look forward to the opportunity to discuss further how I can contribute to your team.

Thank you for considering my application.

Best regards,

Ahsan Ahmad
